Race Terms

Article 14. Disqualification Schedules.

There are many disqualification schedules indicated on the website maraotrail.pt of the Compressport UTM (as well as the explanation of each race). These schedules can be modified at any time by the organization. The athletes that wish to follow the course, and have exceeded the disqualification schedules, are immediately out of the race, and will have their dorsal and chip taken out by staff members. If these already disqualified athletes wish to proceed on the race, they are at their own risk. The time limits will always be taken in account when the athletes leave the supply store and not when they come in.

Article 15. Course.

The Compressport UTM tests mostly cover mountain tracks, covering trails of seven pedestrian courses of small marked routes, and given their singular characteristics is the most rugged among other mountain ranges of Portugal, despite its low altitude.

In the impossibility of performing the road traffic cut in some passages all participants must oblige to the traffic rules on roads of public use, and should also respect the agricultural areas and private properties, under penalty of having to assume potential damage and indemnification resulting of non fulfillment.

Artigo 16. Supplies.

There are several kinds of supplies distributed along the course:

- Light (drinks, sweet food);
- Consistent (drinks, sweet and salty food);
- Many consistent (drinks, sweet and salty food, soups).

The supply responsible can prohibit, or limit, the access of the companions to make the course's management easier.

Article 17. Dorsal.

It is mandatory the presentation of an I.D. with a picture to take the athlete's kit. Under no circumstances can be used by a third person, being personal and non-transferable. During the test, it has to be seen by the whole organization, on the chest or waist; not being cut, folded or modified. It can be a reason for penalization or immediate disqualification of its manipulation.

Article 18. Controls.

The number and location of the timekeeping controls and the materials will not be revealed by the organization.

Article 19. Timing.

It is mandatory the timing in every expected checkpoint provided for this purpose, departure and arrivals included.
